Key Professional Requirements

You will work closely with clients as you contribute to the development of the CellPoint Mobile payment roadmap. Key requirements include:

- Minimum of 8 years of experience as a developer
- Extensive PHP experience at a large enterprise firm or payment provider
- Strong SQL skills with hands-on database experience with PostGreSQL or Oracle (as examples)
- Experience in developing PHP-based custom frameworks
- Good knowledge of OOP's and Design patterns
- Knowledge of SOA and related web services (REST/WADL, HTTP, SOAP/WSDL, etc....)
- Experience with XML, XSL, XSD
- Understanding of the payment ecosystem and various roles/players (e.g., Payment Service Providers (PSPs), payment schemes, etc.) will be an added advantage
- Excellent communications skills, in English (written and oral skills)
- Should have experience working and interacting with customers via email/telephone/Skype
- Ability to document code and solutions in English
- General knowledge of Apache and Linux is an advantage

Key Personal Traits

You must be as enthusiastic as we are about developing projects in close contact with our customers and partners in a dynamic and professional international environment. The ideal candidate will:

- Have excellent communication skills
- Embrace a proactive mindset and be willing to take initiative
- Be able to work independently and take pride in delivering the best solutions
- Relish complicated challenges and exhibit the ability to think "out-of-the-box" to solve problems
- Be a team player who can meet tight deadlines
- Possess a positive attitude and good communication skills
