

**QA Automation Lead**  
**India, Pune**  
**October 2018**  
**Full-time**

**A Career Opportunity with CellPoint Mobile ([www.cellpointmobile.com](http://www.cellpointmobile.com))**

CellPoint Mobile (CPM), a provider of enterprise software and services to the transportation industry, is seeking a Test Architect to fuel the company's growth and expansion. We are a dynamic and fast-growing solutions specialist in commerce orchestration, eWallets and digital payments, providing e-commerce and payments services to airline, rail and road transportation companies across the globe.

**Position Overview**

We are actively recruiting a QA Automation Lead. The ideal candidate should exhibit hands-on expertise in manual and automated testing, and exceptional knowledge in Mobile, Web and API Automation. We are seeking a candidate who will maintain the highest level of quality in our deliverables through continuous automation testing.

We have immediate, full-time openings in our Pune, India, location. Travel may be required. CellPoint Mobile offers a competitive package and the opportunity to solve IT challenges for partners and projects around the globe with a team that is shaping the future of commerce orchestration and digital payments.

**Key Responsibilities & Qualifications Required**

The ideal candidate will have the following skills and characteristics:

- 10+ years in Test Automation
- Hands-on QA Lead or Senior Tester role with either previous experience of leading a QA team or mentoring and coaching
- Can provide leadership and guidance to the test team on best practice, plus develop and agree on realistic training and development
- Strong positive attitude and a demonstrated ability to accomplish complicated projects with confidence
- A start-up mentality
- Demonstrated ability to creatively and proactively solve problems
- Excellent communication skills
- Experience working on eCommerce projects
- Ability to learn quickly and work efficiently

- Must be a team player with the ability to manage multiple tasks in a deadline-driven environment
- A strong work ethic
- Highly organized with a keen attention to detail
- Proven written and verbal communication skills (English)
- College degree or equivalent experience required

### **Specific Technical Requirements & Skills needed**

- Subject Matter Expertise in Defining, Designing and Owning the Test Automation Framework
- Expert level knowledge and hands-on experience in Mobile, Web and API automation testing
- Demonstrated experience in testing REST APIs using Postman/SOAP UI or a similar tool
- Any other API Automation is an added bonus such as JSON.
- Previous experience with Payment Industry, SOAP/REST Frameworks
- Solid understanding of Selenium, JIRA, GIT
- Proficiency with test planning, test reporting and test lifecycle management
- Candidate should have hands on experience in using the latest tools and technologies for automation and continuous integrations
- Linux, UNIX, Windows knowledge
- Experience of scripting
- An understanding of the QA function in the context of Continuous Integration and Continuous deployment.

**Work Location:** Pune, India
