

Test Architect
India, Pune
October 2018
Full-time

A Career Opportunity with CellPoint Mobile (www.cellpointmobile.com)

CellPoint Mobile (CPM), a provider of enterprise software and services to the transportation industry, is seeking a Test Architect to fuel the company's growth and expansion. We are a dynamic and fast-growing solutions specialist in commerce orchestration, eWallets and digital payments, providing e-commerce and payments services to airline, rail and road transportation companies across the globe.

Position Overview

We are actively recruiting a Test Architect. The ideal candidate should exhibit hands-on expertise in manual and automated testing, and an expert in designing and defining test frameworks. We are seeking a candidate who will maintain the highest level of quality in our deliverables through continuous testing of Functional and Non-functional aspects of products and benchmark them.

We have immediate, full-time openings in our Pune, India, location. Travel may be required. CellPoint Mobile offers a competitive package and the opportunity to solve IT challenges for partners and projects around the globe with a team that is shaping the future of commerce orchestration and digital payments.

Key Responsibilities & Qualifications Required

The ideal candidate will have the following skills and characteristics:

- 10+ years experience as Test Architect/Consultant or Lead
- Strong positive attitude and a demonstrated ability to accomplish complicated projects with confidence
- A start-up mentality
- Demonstrated ability to creatively and proactively solve problems
- Excellent communication skills
- Experience working on eCommerce projects
- Ability to learn quickly and work efficiently
- Must be a team player with the ability to manage multiple tasks in a deadline-driven environment

- A strong work ethic
- Highly organized with a keen attention to detail
- Proven written and verbal communication skills (English)
- College degree or equivalent experience required

Specific Technical Requirements & Skills needed

- Subject Matter Expertise in Defining, Designing and Owning the Test Automation Framework
- Expert level knowledge of Mobile, Web and API automation testing
- Ability to provide mentoring to junior testers
- Previous experience with Payment Industry, SOAP/REST Frameworks
- Solid understanding of Selenium, JIRA, GIT, Load runner, Jmeter
- Proficiency with test planning, test reporting and test lifecycle management
- Candidate should have hands on experience in using the latest tools and technologies for automation and continuous integrations
- Understanding of Non-Functional Testing

Work Location: Pune, India
